

Michigan

Restaurant Industry at a Glance

Restaurants in Michigan are a driving force in the state's economy. Their sales generate tremendous tax revenues. They provide jobs and build careers for thousands of people. They also provide healthful options for their guests, give back to their communities, and work to reduce their impact on the environment. Visit www.restaurant.org to learn more about what the restaurant industry does for Michigan and the nation in four key areas: profitability and entrepreneurship, jobs and careers, food and healthy living, and sustainability and social responsibility.
